Special Instructions

T-Post - draw panels	TP Line # _____	TP1	(TP2)
Custom Frames - specify frames	CW Line # _____	T L R B	
Subtotal			
Other			
Tax			
Total			

Colors	WoodTex Finish™, White or Swiss Coffee	
1 Louver Styles	3" or 4"	
2 Mount Type	IN - Inside Mount	OUT - Outside Mount
3 Shutter Type	SF - Standard Folding	BP - Bi Pass Slider
4 Frame Type	Outside Mount: ST - Std L Frame DS - Designer Frame TK - Track	Inside Mount: TR - Trim Z Frame EL - Elegance Z Frame ZF - Z Frame TK - Track
5 No. of Frame Sides	4W 4-sided Frame for window (outside or inside mounts) 4S 4-sided frame for Sill (Sill Plate on bottom) 4A 4-sided Frame for Sunburst Arches with Standard Frame on top to accommodate Arch 3W 3-sided Frame for window (used for windows with crank on bottom or with Sill)	BT - Bi Pass w/ Btm Track TP - T-Post FD - French Door TK - Track Shutter
6 Size	Provide width and height and indicate whether they are window opening size or frame to frame size. Wide openings use T-Posts. Ensure mounting clearances around window or inside window jamb for proper installation of frame.	
7 Panel Configuration	Note # of panels folding Left (L) and Right (R) based on the opening width and folding direction desired. Maximum Panel Width Maximum Window Width	Sliders: EX - Slider Extended Frame ED - Slider Extended Frame w/ Deco TK - Track
8 Split Tilters	* It's recommended to use T-Posts on shutters wider than 72"	
9 Add Front Tilt	Split tilters allow for independent light control between top and bottom louvers and are required on all panels 62" or taller. Split tilters will be placed as close as possible to indicated height (from bottom of shutter to midpoint of rail). If Allview Shutters are always built with Allview Rear Tilt to give the maximum view possible. This is a standard feature of the shutter at no extra cost. If you would like to add a tilt rod, mark (Y) in this box. A \$5 surcharge will apply.	
10 Frame Build Out	Used to project shutters 1" forward when louvers need clearance to operate. i.e. mounting beyond molding, to clear door handles or mounting a standard shutter on sliding door. For Track Shutters, extended bracket is supplied.	
11 Hinge Custom	For Custom Hinges, specify B for Brass or S of Stainless steel hinges.	
12 Mount Catch	Magnets are premounted onto shutters. There will be a \$5 surcharge.	
13 Corner Group	For Corner windows, a pair of shutters can be marked as Corner Group Left and Right. Order as window size and the factory will make all the deductions and frame design needed.	
14 T-Post Location	It's recommended to use T-Posts on all shutters wider than 72". T-Posts are individual shutters butted next to each other using a standard frame where the T-Posts meet. Specify distance from left point of given size to center of T-Post 1 and T-Post 2. Window Size - From Left of window to Center of T-Post. Frame Size - From Left frame to Center of T-Post. Draw folding direction of T-Post in special instructions below.	
15 Pricing	Refer to pricing section to get Pricing size in Sqft (decimals round up to 1/2 sqft)	
16 Total	Total = Size for pricing X \$ /sqft + any surcharges (refer to price list for surcharges)	

I. Ordering By Shutter Frame to Shutter Frame Size

Outside Mount Frames only (give outside of frame to outside of frame size)
