Simple Touch® Motorized Aluminum Blind

Installation

Identify your aluminum blind and parts (your parts may vary, depending on the custom request, size of the headrail & blind you are purchasing.)
Simple Touch aluminum blind and remote
Brackets & screws

blind width	Qty of brackets
W ≤ 39.5"	2
39.5" < W ≤ 67"	3
67" < W ≤ 96"	4
96" < W ≤ 120"	5

Rechargeable battery pack (10.5" x 1" x 1")   20" cord
Mounting brackets

Screws   USB wall charger   80" USB-C cord

Rechargeable battery pack (*The default quantity of the charger and USB cord is 1 set per order. You can request more sets at no cost up to the same quantity as the rechargeable battery pack you ordered.)

Extension brackets (optional)   Spacers (optional)

Tools you may need (not included)

Drill with bits   Metal tape measure   Pen   #4 x 3/4" flat head wood screw   Screwdriver
Install the brackets
- Mark the bracket locations. Space the brackets evenly and make sure the brackets will not interfere with any mechanism or other internal headrail parts.
- Install the brackets using screws (included) and tighten them completely.
- Make sure all brackets are aligned and level with each other.

- Install the blind with extension brackets (optional)
  - o Install the extension bracket with at least 2 screws.
  - o Attach the hidden brackets to the extension brackets with the screws.

Inside Mount   Outside Mount

Extension bracket

Optional – Add a spacer behind the bracket if needed.

Install the rechargeable battery pack
- The rechargeable battery pack can either be hooked behind the headrail or mounted to the wall or window frame.
- Refer to the Simple Touch rechargeable battery pack user guide to install the battery pack.

3-1/2"

or

The minimum flush mounting space is 3-1/2" ~4".

Attach the blind
- Position the headrail with the front lip resting on the top hooks of all the brackets.
- Push the bottom of headrail firmly upward and toward the window until the groove at the bottom of the headrail snaps into place.
How to remove the blind from the brackets
- Press the **UP** button to raise the blind completely.
- Use a flat screw to push the bracket tab toward to the wall. Once you hear a "click", then the blind will be released from the bracket.
- Repeat above step to release the blind from other brackets.
